

PipeKnife

Professional Sealant Cutout Tool

**New
Extra Long!**

The PipeKnife is now available in two great lengths. The original 14" PipeKnife and the new 18" PipeKnife-XL for even longer reach and added leverage.

The PipeKnife is an extra long utility knife made from heavy-duty cast aluminum that uses standard utility knife blades. Because of its length, two hands can be used for additional leverage and reach. The long handle keeps knuckles from scraping on the work surface like an ordinary utility knife.

For All Professional Contractors

**Now with
Extra Blade Holder
In Handle***

*XL Model Only
